

## Compur Statox 4120 in the Flow – Mode with Sample Dilution

- The sample gas is diluted with clean ambient air, thus increasing the measuring range and lowering the relative humidity of the sample.
- Explosion proof flow meter includes 4 – 20 mA output
- Sampling pump explosion proof 230 / 120 VAC
- Cabinet GFK with conductive surface
- Operation in classified areas is possible
- Sampling from classified areas is possible
